Sir,

I have the honour to forward herewith copy of letter No 537 dated the 19th March 1923 received from the President of the Shimoga Town Municipal Council requesting that the Town Sanitary Inspector may be appointed Superintendent of Vaccination in place of the District Health Officer which office has since been abolished I agree with the above proposal of the President and request that sanction may be accorded to effect necessary - alterations in the Vaccination Bye-laws in force in the Municipality sanctioned by Government in their Order No. 6904-Ml 179-13-22 dated the 13th January 1914

If the recommendation is approved bye-laws 5 & 12 have to be amended. Draft same & send for approval & issue orders

The Lady Health Officer at Shimoga is an Ex Officio Vaccinator. As such it does not appear to be worthwhile to appoint the Town Health Officer who is Ex Officio Vaccinator, the Superintendent of Vaccination when the Lady Health Officer who is Ex Officio Vaccinator may be the Superintendent. Letter No. 537 dated 6/13th March 1923 from the President, Shimoga Town Municipal Council to the Deputy Commissioner, Shimoga dt

---

According to the bye-laws in force (copy enclosed) in this Municipality, the District Health Officer was styled as Superintendent of Vaccination in the Town. As the post of the District Health Officer has since been abolished, and as the District Medical Officer among his multifarious duties may not find it convenient to supervise vaccination arrangements in the Town, the Council have resolved to designate the Town Sanitary Inspector as Superintendent of Vaccination within Municipal areas. As this amendment necessitates sanction of the Government, I have the honour to request to kindly move the Government on this subject.
